

MATERIAL HANDLING

FINEX VIBRATORY FEEDER	
	
Capacity	10 to 5000 kgs/hr.
Design	Electromagnetic coil is housed in enclosure vibrates the Feed material .
Application	For controlled Feeding of materials at preset rates into further Process Equipments
Advantages	Intensity of vibrations can be varied to vary feed Rate to further equipment. Storage hoppers can be fitted above the Feeder to hold material.

FINEX ROASTING EQUIPMENTS		
		
Power	3 to 20 hp	
Capacity	50-1000kgs batch	
Function	This is insulated rotating & tilting drum which is running at a slow speed. The rotating drum is heated directly by gas burners/Electric or by indirect heating.	
Application	Spices, coffee, rice, chicory, cashewnuts, gramdals, groundnuts.	
Time Period	15-60 minutes	
TEMPERATURE	100 TO500DEG C
